Two-column layout test

Abstract. This synthetic article checks that a full-width title and abstract come first and that the two columns below are read left column first, then right column, page after page.

1 Section 1

Paragraph 1.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 1.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 1.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 1.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

2 Section 2

Paragraph 2.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 2.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 2.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 2.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

3 Section 3

Paragraph 3.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the

whole page.

Paragraph 3.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 3.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 3.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

4 Section 4

Paragraph 4.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 4.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 4.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 4.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

5 Section 5

Paragraph 5.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 5.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 5.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 5.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

6 Section 6

Paragraph 6.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 6.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 6.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 6.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

7 Section 7

Paragraph 7.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 7.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 7.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 7.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

8 Section 8

Paragraph 8.1. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 8.2. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 8.3. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.

Paragraph 8.4. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share

baselines across the whole page. It carries enough words to wrap over several lines of a narrow column, so that lines of the left and right columns share baselines across the whole page.
